

PHS in Czech Republic: Workshop

The [Ad-PHS project](#) has, as its main objective, the creation of a platform as single point of contact to support, guide and provide advice to Public Authorities and stakeholders across Europe in the development of their PHS policies. The Personal and Household Services sectors comprise several domains of services and activities which contribute to the households' wellbeing, both through care and non-care interventions.

Our aim is to connect the various stakeholders on a national level in order to improve the knowledge of PHS policies and practices, before contextualizing these dynamics on a European scale. To do so, the project partners are organizing events in key EU Member States to foster dialogue and gather information.

In this context, we are pleased to **invite you to take part in our Workshop on the 19th of February in Prague**. During this workshop, we intend to review the current state of PHS in the Czech Republic as well as to share promising practices and connect stakeholders. The workshop will welcome public authorities and a variety of PHS actors.

To register and for any question or remark, please contact michaela.urbanova@uzs.cz
